TITLE: Reply to N2394, UK National Body Comments

WG 3 thanks the UK National Body for their substantial comments to N2334 in the document identified above.

The Editors apologize for the late submission of N2334, Framework for IT Security Assurance and thank the UK National Body for responding quickly to the late submission of this document. WG 3 have discussed the UK issues , and have agreed to deal with them as highlighted below. A full description of the work to be done is included in the Editor´s Note in N2334r.

This Editor's note addresses your issues, and explains that due to the short notice for National Body comments prior to the October ISO/IEC SC 27 meetings, N2334 is reissued with the new deadlines.

Further development of N2334r will address the UK issues as follows:

1. The distribution has been widened to invite input from:

    i. ISO/IEC JTC1 SC 27 NBs by 2000-02-22

    ii. ISO/IEC JTC1 SC 27/WG 1 by 2000-05-31 (following the next WG 1 meeting)

    iii. Other ISO, IEC, JTC 1 Committees, Non-ISO organisations by 2000-09-15.

2. Identify relevant references to ISO and non-ISO initiatives and standards, and use them where appropriate, and identify any open issues and conflicts.

3. The NP will be reviewed to ensure that the scope of N2334 is correct.
